Re: Notice of Business Change

National Inspection Services
License Number: 17-35438-01

To whom it may concern:

Please accept this letter as an official notification on the behalf of National Inspection Services, L.L.C.'s ("National Inspection Services") intent to position itself as part of a "holding company" for future investment and growth opportunity. Future subsidiaries of the holding company will be required to integrate into National Inspection Services' systems and processes as they pertain to the RAM license. As indicated by the responses to the NRC's 10 CFR parts 30, 37, 40, and 70, the current personnel will retain full control of the licensed activities and program. No changes in facilities, equipment, personnel, operations, radiation safety officers, etc. will take place.

1.) Description of Transaction

- Transfer of National Inspection Services as a wholly-owned subsidiary of the holding company.
- This change will occur via a transfer of membership interests owned by the "individual" Neil J. Marks to the holding company.
- The current owner, Neil J. Marks will remain Chairman of the Board of Directors of National Inspection Services and the holding company and will retain significant stock and part ownership as an investor in the holding company. He will be part of the board of directors and retain oversight of National Inspection Services.
- National Inspection Services' Federal employer identification number is not changing.
- See Attached Organizational Chart.

2.) Changes of Personnel

- There will be no changes in personnel.
- All personnel currently employed will remain employed and retain their current roles and responsibilities.

1101 Myrtle Street
Odessa, TX 79765

3.) Changes of Location, Equipment, and Procedures

- There will be no changes to the locations of use, facility description, equipment, or procedures that would constitute a license amendment.
- There is no contamination present. All sealed source and device leak tests are current.
- There are no changes in organizational structure that would impact the integrity, safety, and security of the current radioactive materials license program.
- No additional locations are being added currently.

5.4.) Surveillance Records

- All surveillance required for Industrial Radiography have been performed, documented, and reviewed.

5.5.) Decommissioning and related Records Transfer

- All location(s) as they pertain to this license, will remain operational.
- No decommissioning will take place as part of this change.
- On behalf of National Inspection Services and pursuant to 10 CFR 30.35(g), we shall maintain drawings and records important to decommissioning and will transfer these records to an NRC or Agreement State licensee should license activities be transferred, or we will transfer the records to the appropriate NRC or Agreement State agency before the license would be terminated.
- All required records will be retained by National Inspection Services as required.

5.6.) Transferee's Commitment to Abide by the Transferor's Commitments

- National Inspection Services agrees to abide by all constraints, license conditions, requirements, representations, and commitments identified in and attributed to the existing license to assure compliance.
- There are no pending enforcement actions against National Inspection Services.

An organizational chart was attached for review. Please feel free to contact me with any questions, concerns, or should we need to provide any further documentation.

MLB,

This email was sent to me two Fridays ago, I am just now seeing it. I emailed Gabe and told him to reach out to MLB's email address, but I wanted to forward these documents in case he isn't able to reach out in a timely manner.

Thanks,
Ryan
