**SUBJECT: WASHINGTON STATE APPROVAL REQUEST FOR NON-STANDARD
LICENSE CONDITION**

Dear John Martell:

We have completed our review of Washington State's non-standard license condition request which was received by our office on June 27, 2025. The intent of this condition is to ensure staff receive adequate notice as well as appropriate time to review work plans for high-risk work activities involving Category 1 and 2 quantities and ensure work activities are protective of both workers and public health. Additionally, the 30-day notice prior to scheduled work activities allows staff to ensure all notifications and planning activities are in place. This requirement was evaluated against the corresponding U.S. Nuclear Regulatory Commission (NRC) regulations and applicable guidance documents, as reflected in the enclosed State Regulation Status (SRS) Data Sheet. We discussed the content and applicability of this non-standard license condition requirement with you on August 5, 2025.

Following our discussion, the State of Washington believes the non-standard condition is necessary to allow adequate time for review and planning of high-risk work involving Category 1 and 2 sources. The described "work plan" appears to address radiological risk as opposed to security risk.

Based on our review, we have no comments. We have determined that the non-standard license condition meets the compatibility and health, and safety categories defined in the Office of Nuclear Material Safety and Safeguards Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements." The SRS Data Sheet summarizes our knowledge of the status of other Washington regulations, as indicated. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on: <https://www.nrc.gov/agreement-states>.

If you have any questions regarding the review, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact my staff at AgreementStateRegs.Resource@nrc.gov.

Sincerely,

Signed by Giantelli, Adelaide
