**SUBJECT: PRINCETON COMMUNITY HOSPITAL, REQUEST FOR ADDITIONAL
INFORMATION, MAIL CONTROL NO. 647295**

Dear Albert Boland:

This is in reference to your application dated June 10, 2025, requesting to amend NRC License No. 47-16307-01. In order to continue our review, we need the following additional information. Please be aware that, unless stated otherwise, all “Item”, “Section”, and “Appendix” references below are referring to NUREG-1556, Volume 9, Revision 3, “Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Medical Use Licenses” which can be found at <https://www.nrc.gov/docs/ML1925/ML19256C219.pdf>.

1. Item 7. Individuals Responsible for Radiation Safety – In your application, you requested the appointment of C. Kelly Stoneberg as the Associate Radiation Safety Officer (ARSO) for your license. Based on the documentation you submitted to support the appointment of this individual and the NRC’s knowledge of this person’s responsibility with other NRC licensees, it would appear that they would be considered a consultant ARSO for your license. Please provide the following information:
 - a. Identify other commitments of the consultant ARSO for other NRC or Agreement State licensed facilities, along with a description of how the consultant ARSO will allocate time to permit the performance of the duties of the ARSO, as described in the regulations. State the consultant ARSO’s minimum amount of onsite time (hours per week or days per quarter, as appropriate for the size of the program).
 - b. Describe the overall availability of the consultant ARSO to respond to questions or operational issues that arise during the conduct of the radiation safety program and related regulatory requirements.
 - c. If C. Kelly Stoneberg will be expected to respond to an event or an emergency, specify the maximum amount of time it will take the consultant ARSO to arrive at the facility, in the event of an emergency that requires his or her presence.

We will continue our review upon receipt of this information. Please reply to my attention at:

Mail Control No. 647295

In order to continue prompt review of your application, we request that you submit your response to this letter within 30 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to the NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all the portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at 610-337-5198 or via electronic mail at Christopher.Rapson@nrc.gov.

Thank you for your cooperation.

Sincerely,

Christopher Rapson, Health Physicist
Medical and Licensing Assistance Branch
Division of Radiological Safety and Security
