Document Control Desk

Director, Office of Nuclear Material Safety and Safeguards

U.S Nuclear Regulatory Commission

Washington, D.C. 20555-0001

Louisiana Energy Services, LLC

NRC Docket Number: 70-3103

Subject: Request for Authorization to Initiate Feed Inlet and
Commence Operation of Assay 6 Cascade 6.6

Louisiana Energy Services (LES) LLC, dba Urenco USA (UUSA), has successfully performed procedure OP-3-0450-03, IROFSC23 Surveillance Procedure and has demonstrated that Assay 6 Cascade 6.6 meets the requirements of IROFSC23. This letter is to request authorization to initiate feed inlet and commence operation of Cascade 6.6.

The data was reviewed and the acceptance criteria has been met. The verification results of the surveillance have been documented in accordance with UUSA Procedure EG-3-2100-05, Commercial Grade Dedication Process. The associated Commercial Grade Dedication Forms are enclosed for NRC Staff review.

UUSA requests that the enclosed Commercial Grade Dedication Forms be withheld from public disclosure as provided by 10 CFR 2.390(a)(4) and (d) because they contain proprietary and/or commercial sensitive information that is privileged and confidential. The enclosed Affidavit supports this withholding request.

Should there be any questions concerning this submittal, please contact Holly Harvey UUSA Senior Licensing Specialist, at 575.394.6526.

Sincerely,

Paul Lorskulsint

Head of Compliance & Chief Nuclear Officer

ENCLOSURE 1
Affidavit

I, Paul Lorskulsint, being duly sworn, state that I am the Chief Nuclear Officer for Louisiana Energy Services, LLC (LES) at the Urenco USA Facility; that I am authorized on the part of said company to sign and file with the Nuclear Regulatory Commission this document; and that all statements made and matters set forth herein are true and correct to the best of my knowledge, information, and belief:

LES wishes to have withheld from public disclosure the following document:

1. Commercial Grade Dedication Forms for Cascade 6.6

The information contained in the document cited above for which exemption from public disclosure is requested is owned by LES. The information contained in the documents cited above for which exemption from public disclosure is requested includes confidential business proprietary, trade secret, and/or commercially sensitive information related to commercial aspects of the Urenco USA Facility operated by LES, its operation and/or commercially sensitive LES business plans. LES is likely to suffer competitive disadvantages from disclosure of the referenced information. Accordingly, LES requests that the confidential, proprietary, and Sensitive Unclassified Non-Safeguards Information (SUNSI) be exempt from disclosure pursuant to the provisions in 10 CFR 2.390(a)(4) and 10 CFR 2.390(d).

Public disclosure of the information in the attached enclosure to this submittal has the potential to result in substantial harm to the competitive position of LES, unfairly provide valuable company proprietary business information to competitors of LES which the competitors could utilize to their benefit without having to expend their own resources to develop and to interfere with LES business strategies, and such disclosure could reduce or foreclose the availability of profit opportunities.

The information sought to be withheld is not available in public sources, to the best of LES' knowledge and belief.

The information stated in this affidavit has been submitted in accordance with the applicable parts of 10 CFR 2.390 and the guidance from NRC RIS-2004-11.

I declare under penalty of perjury that the foregoing is true and correct.

Paul Lorskulsint
Chief Nuclear Officer
Louisiana Energy Services, LLC
