Hi Beth,  
Yes, we can set up a meeting this week. Would you be available tomorrow 9/10 at 1pm ET (11am MT)?  
Thank you.

Diana,

After our call we dug in a little more on the conservation measures and #7 really stood out to me for 2 reasons. The first, the text added in red says “shafts” plural when the entire paragraph is only discussing the Triangle Mine ventilation shaft. Second, we don’t understand how USFWS went from just putting a buffer around the shaft to having to “reinitiate ESA Section 7 consultation.” Powertech would prefer to add in additional mitigation rather than reinitiate Section 7. Would it be possible to set up another meeting early next week to discuss with you and Mitchell?  
Sincerely,

Beth Wilson

---

Good afternoon,

As discussed, attached are the updates to the ecology conservation measures that FWS shared with NRC staff. This document is non-public and has been password protected. I will follow up separately with the PW.

I've also attached the most recent [FWS bat survey guidance](#), which the conservation measures reference.

Finally, there is one clarifying question, based on comments from the FWS, that we are also looking to understand: how many acres of trees (Ponderosa Pine) would be removed and would they eventually be replanted as part of the revegetation.

Thank you.

Diana

Jon,

As discussed, attached are the updates to the ecology conservation measures FWS shared with NRC. This document is non-public and has been password protected. I will follow up separately.

I've also attached the most recent [FWS bat survey guidance](#) for reference.

Additionally, can you clarify how many acres of trees (Ponderosa Pine) would be removed and would they eventually be replanted as part of the revegetation?

Please, let me know if you have any questions.

Thank you,

Diana
