Subject: Closure of Westinghouse 10 CFR Part 21 Interim Report Log No. 2025-12-00

The purpose of this letter is to close Interim Report Log No. 2025-12-00. On June 27, 2025, Westinghouse submitted an interim report¹ under 10 CFR Part 21 concerning an identified potential deviation where the associated evaluation could not be completed in 60 days from discovery.

Westinghouse has completed its evaluation and has concluded that this matter does not result in unsafe fuel storage configurations in the spent fuel pool that could lead to a substantial safety hazard. Accordingly, the issue is not reportable under 10 CFR Part 21. Westinghouse has communicated the results of its evaluation to the affected Licensee.

If there any further questions or concerns from the NRC staff, please contact me at bowmanab@westinghouse.com.

Sincerely,

A handwritten signature in black ink that reads 'Andrew B. Bowman'.

Andrew B. Bowman
Manager, Global Nuclear Regulatory Affairs
