November 17, 2025

Candace Rios, Radiation Safety Officer
EBA Engineering, Inc.
6100 Chevy Chase Drive
Suite 200
Larel, Maryland 20707

SUBJECT: EBA ENGINEERING, INC, REQUEST FOR ADDITIONAL INFORMATION, MAIL CONTROL NO. 649420

Dear Candace Rios,

This is in reference to your application dated August 18, 2025, your response to the requested additional information received September 23, 2025 and your response received on November 13, 2025 requesting to renew NRC License No. 19-35269-01. In order to continue our review, we need the following additional information:

1. Your active United States Nuclear Regulatory Commission material license, Amendment No. 02, Condition 10 states licensed material may be used or stored at 3365B V. Street, N.E. Washington, District of Columbia. During a phone call November 14, 2025, it was stated that there is not a storage location for the portable gauges therefore, we are unable to maintain the address on the license.

Please provide the following information in support of the removal of the location from your license:

- *Submit records of transfer and/or disposal for all sealed sources previously used and/or stored at the former location.*

AND

Submit current leak test reports for all sealed sources previously stored at the former location.

If the above statement does not apply to your license, please provide **one** of the following below:

- The statement *“No radioactive material has ever been used or stored at the facility located at this address.”*

OR

- If you are unable to provide the date on which the material left the building, please *confirm that no leaking sources have been identified from your inventory in the past.*

We will continue our review upon receipt of this information. Please reply to my attention at:

Reference – Candace Krout

Mail Control No. 649420

In order to continue prompt review of your application, we request that you submit your response to this letter within 30 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to the NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at 610-337-5246 or via electronic mail at Candace.Krout@nrc.gov.

Thank you for your cooperation.

Sincerely,

Candace Krout, Health Physicist
Commercial, Industrial, R&D
and Academic Branch
Division of Radiological Safety and Security
