

The following security advisory (SA) is not publicly available because it is designated “Official Use Only – Security Related Information,” which is exempt from public disclosure in accordance with the U.S. Nuclear Regulatory Commission’s (NRC’s) sensitive unclassified nonsafeguards information (SUNSI) handling requirements:

SA 2024-20, “Recent Events Involving Uncrewed Aerial Systems Overflights at NRC Licensed Facilities”

The NRC has issued SA 2024-20 on December 20, 2024, to all affected operating power reactors including those under construction; non-power reactors; decommissioning power reactors, including those that are permanently defueled but have not transitioned to decommissioning; fuel fabrication, enrichment, and conversion/deconversion facilities; independent spent fuel storage installations; and licensees possessing special nuclear material under Title 10 of the *Code of Federal Regulations* (10 CFR) Part 70. Note that the SA contains security-related information and is, therefore, being withheld from public disclosure in accordance with NRC SUNSI handling requirements.
