RE: Amendment to NRC Export License, PXB139.07

Dear Ms. Attack:

Enclosed please find attached NRC Form 7 (with attachments), which requests an amendment to license, PXB139.07 for Schlumberger Technology Corporation (STC). This license authorizes the export of certain byproduct material contained in sealed sources and associated equipment to two affiliated companies operating in Iraq, a country currently on the NRC embargoed destination list provided in 10 C.F.R. § 110.28.

The amendment request includes:

- Addition of one intermediate consignee to the current license

I am providing both an un-redacted and redacted version of the application, the latter suitably marked to remove business confidential information from the version available to the public as permitted by 10 C.F.R. § 2.390(a)(4). A notarized affidavit meeting the requirements of 10 C.F.R. § 2.390(b) is attached.

If you have any questions regarding this application or require any additional information, you may contact me at 281-285-8775 or lwilcox@slb.com.

Sincerely,

 Digitally signed

AFFIDAVIT

September 11, 2025

1. My name is Laura Wilcox. I am the Radiation Safety Officer for Schlumberger Technology Corporation ("STC").
2. The purpose of this affidavit is to provide the information required by 10 C.F.R. § 2.390(b) to support a request that certain information contained in and supporting STC's application for a specific license to export certain byproduct material contained in sealed sources and associated equipment to seven affiliated companies in Iraq, be withheld from public disclosure.
3. I have been delegated the function of reviewing the information that STC requests be withheld and am authorized to execute this Affidavit on behalf of STC.
4. I am familiar with the criteria applied by STC to determine whether certain STC information is proprietary. I am familiar with the policies established by STC to ensure the proper application of these criteria.
5. STC requests that the indicated portions of its application be withheld from public disclosure as confidential business information: the redacted section of NRC Form 7 in its entirety.
6. I am familiar with the information specified in paragraph 5, which constitutes confidential commercial information that should be held in confidence by the NRC pursuant to 10 C.F.R. § 2.390(a)(4) because:
 1. This information is and has been held in confidence by STC.
 2. This information is of a type that is customarily held in confidence by STC, and there is a rational basis for doing so.
 3. This information was transmitted to the NRC in confidence and was marked "Confidential." The specified information contained in STC's application for a specific license to export certain byproduct material remains Confidential.
 4. This information is not available in public sources and could not be gathered readily from other publicly available information, as this information is considered to be "Security Sensitive Information" by the NRC and the Agreement States.
 5. Public disclosure of this information would create substantial harm to the competitive position of STC because it would reveal valuable business information regarding the type and size of its operations in Iraq and the capacity of STC to provide radioactive materials.
 6. The public disclosure of the specified information would provide STC's competitors with free access to STC's confidential business information, and thereby would likely cause substantial financial harm to STC.
7. Accordingly, STC requests that the redacted parts of the attached page from NRC Form 7 in its entirety be withheld from public disclosure pursuant to 10 C.F.R. § 2.390(a)(4).
8. The foregoing statements are true and correct to the best of my knowledge, information, and belief.

Sincerely,

 Digitally signed
