RE: AMENDMENT OF NRC MATERIAL LICENSE NO: 13-32182-01

To: Tammy Tomczak or Whom it may concern,

We are requesting a change to the listed RSO for GME Testing. GME Testing would like to have Brett Frisch listed as the new RSO for GME Testing. Dina Sljivo is no longer with GME Testing. Brett Frisch's Gauge Safety and Radiation Safety Office Certificate is attached to this email as well.

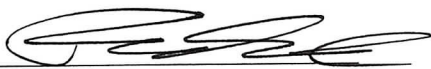

If you have any questions or concerns please do not hesitate to contact Rami Anabtawi or Brett Frisch by email or phone.

Memo To: Radiation Safety Officer
From: Rami Anabtawi, PE, President
Subject: Delegation of Authority

You, Brett Frisch, have been appointed radiation safety officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the Radiation Protection Program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations, when justified, to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the U.S. Nuclear Regulatory Commission at any time. It is estimated that you will spend 10 hours per week conducting radiation protection activities.

APNGA Portable Nuclear Gauge Safety & U.S. D.O.T. Hazmat Certification Class

Certificate of Completion to:

Brett Frisch

HAZMAT refresher training is required within 3 years after today's date:

September 20, 2025

This course covers training criteria of NUREG 1556, The Agreement States,
and 49 CFR 172, Subpart H.

The Company RSO completes the training requirements by familiarizing the employee with:

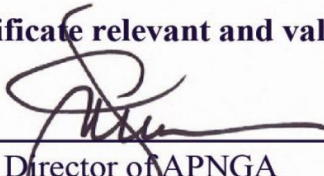

- State-specific regulations including introduction to the state regulatory website
- The company radiation safety program, specifically gauge safety operating and emergency procedures
- A tour of the storage area(s) with emphasis on security, documents and postings
- Loading, security and transporting gauges in company vehicles
- Hands-on training with the gauge and methods in use by the company
- Introduction to gauge safety content on gauge manufacturer website
- This Certificate covers both Gauge Safety and USDOT HAZMAT requirements

The acknowledgement and signature of the RSO/Official makes the training and certificate relevant and valid.

You don't often get email from tammy.tomczak@nrc.gov. [Learn why this is important](#)

Good afternoon, Brett,

In order to process your amendment request, please submit a signed/dated cover letter indicating the changes that you need made to your license. The person signing the letter should either be the RSO or a person designated to make changes to your license.

Thank you,
Tammy
