[2] NRC letter from Osiris Siurano-Pérez, Project Manager, "Acceptance For Review Of Orano Enrichment USA, LLC Request for Exemption from the Title 10 Of The Code Of Federal Regulations Section 51.60(A) Requirement –Enterprise Project Identifier L-2025-LLE-0010", dated April 4, 2025 [ML25092A040]

[3] NRC letter from Samantha Lav, Chief Fuel Facility Licensing Branch to Peter Vescovi, "Approval of the Orano Enrichment USA, LLC, Environmental Report Exemption Request - Enterprise Project Identifier L-2025-LLE-0010", dated May 2, 2025 [ML25085A094 (pkg), ML25085A095 (ltr), ML25085A096 (encl)]

In accordance with Title 10 of the Code of Federal Regulations (10 CFR) Sections 70.5(a) (Communications), 70.21(h) (Filing), and 51.60(a) (Environmental report—materials licenses), Orano Enrichment USA LLC (OE) is submitting this Environmental Report (ER) in support of its forthcoming application to possess and use special nuclear material at the IKE Enrichment Facility.

The proposed enrichment facility will be located in Roane County, Tennessee, near the City of Oak Ridge. OE requested—and the U.S. Nuclear Regulatory Commission (NRC) granted—an exemption from the requirements of 10 CFR 70.21(h) and 51.60(a), permitting OE to submit the ER separately for NRC review approximately six months, but no later than twelve months, prior to submitting the safety and safeguards portions of the license application [1, 2, 3].

As required by 10 CFR 51.60(a), this ER provides the information specified in 10 CFR 51.45 to support the NRC's evaluation of the environmental impacts associated with licensing OE under the National Environmental

4747 Bethesda Ave.
