Kennett Square, PA 19348

SUBJECT: LIMERICK GENERATING STATION, UNIT 1 – PARTIAL WITHDRAWAL OF AN  
AMENDMENT REQUEST (EPID L-2025-LLA-0126)

Dear Mr. Mudrick:

By letter LG-25-063 dated August 8, 2025 (non-public), as supplemented by letter LG-25-063R1 dated August 15, 2025 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML25227A183),<sup>1</sup> Constellation Energy Generation, LLC (the licensee) applied for amendments to Renewed Facility Operating License Nos. NPF-39 and NPF-85 for the Limerick Generating Station (Limerick), Units 1 and 2. The licensee requested the U.S. Nuclear Regulatory Commission (NRC) to modify the facility technical specifications to allow a one-time extension to performing the containment integrated leakage rate test, which is required to be performed every 15 years.

On December 30, 2025, a notice of consideration of issuance of amendment and proposed no significant hazards consideration determination was published in the *Federal Register* (90 FR 61172) for the license amendment requests.

Subsequently, by letter LG-26-030 dated January 30, 2026 (ML26030A249), the licensee withdrew the amendment request for Limerick, Unit 1 only, and supplemented the application for Limerick, Unit 2.

The purpose of this letter is to notify the licensee that the NRC is treating the above-cited license amendment request for Limerick, Unit 1, as withdrawn. The NRC staff is continuing its review of the license amendment request for Limerick, Unit 2.

---

<sup>1</sup> The licensee's supplement dated August 15, 2025, is a publicly available version of the application dated August 8, 2025, which contains personally identifiable information.

C. Mudrick
