The Office of the Inspector General (OIG) requests your input on topical or specific areas for the OIG to consider when planning our FY 2027 audit activities involving the U.S. Nuclear Regulatory Commission (NRC). Consistent with the Inspector General Act, we design our audit planning process to yield assignments that will encourage efficiency, economy, and effectiveness in the NRC's programs and operations; detect and prevent fraud, waste, abuse, and mismanagement; and, improve program and security activities at headquarters and regional locations.

We look forward to your input and respectfully request your response by Friday, June 5, 2026. Please submit your audit suggestions via email to Audit.Comments@nrc.gov.
