PUBLIC MEETING ANNOUNCEMENT

Title: Public Meeting on Digital Condition Monitoring for Nuclear Facilities

Date(s) and Time(s): May 19, 2026, 12:30 PM to 04:30 PM ET

Location: Hybrid, One White Flint North 01F23
11555 Rockville Pike
Rockville, MD

Category: This is an Information Meeting with a Question and Answer Session. The purpose of this meeting is for the NRC staff to meet directly with individuals to discuss regulatory and technical issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed throughout the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: NRC staff are holding a public meeting from 12:30 PM - 4:30 PM on May 19, 2026, with advanced reactor vendors, partner agencies, and other stakeholders to facilitate the exchange of information regarding the condition monitoring of plant equipment and the use of centralized maintenance and diagnostic (M&D) centers for data collection and sharing among nuclear facilities. Information gathered during this meeting will support the future development of NRC research and guidance, if needed, to enable the NRC staff's efficient review of requests to use M&D centers for centralized condition monitoring. This meeting will be recorded to ensure all comments made during the meeting will be captured and summarized appropriately for the meeting summary and the report.
