Subject:	Response to Your Request for Extension of Comment Period
Date:	Tuesday, April 28, 2026 8:59:00 AM
Attachments:	image001.png

Dear Patrick Mulligan,

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your email dated April 14, 2026, requesting extension of the comment periods for the proposed rulemaking "NRC Reviews of Reactor Designs Previously Authorized by U.S. Department of Energy or Department of War" (Docket ID NRC-2025-1503). We understand your interest in having additional time to prepare your feedback. After careful consideration, however, the NRC is unable to grant an extension of the comment period. The deadline for submitting comments remains as published in the *Federal Register* notice (FRN) for this proposed rule.

To have your comment officially filed and considered by the NRC, please submit it through the Federal e-Rulemaking portal Regulations.gov, following the instructions provided in the *Federal Register* notice for the proposed rule (particularly the "ADDRESSES" section).

Submitting your comment via Regulations.gov before the deadline will ensure it is entered into the official docket and given full consideration by the NRC. Thank you for your engagement in the rulemaking process. We appreciate your understanding and look forward to receiving your comment through the appropriate channel.

Sincerely,

Jonathan (Jon) Greives
Director
Division of Advanced Reactors and Non-power Prodution and Utilization Facilities (DANU)
Office of Nuclear Reactor Regulation
301-415-1585
