**RE: Parkview Health
Amendment Request
Remove Address of Use and Add
Associate RSO
License Number: 13-01284-02**

Dear Madam/Sir:

We would like to amend our current NRC license as follows:

Item 1:

We would like to add Dawn Henderson- Davis, CNMT, RT(N), NMTCB(RS) as the Associate Radiation Safety Officer for 10 CFR 35.100, 35.200, 35.300, and 35.1000 (Y-90 SIR-Sphere). We have enclosed NRC Form 313A (RSO/ARSO) for your review.

Dawn has worked at Parkview Health as a nuclear technologist since 1999. She has been the lead nuclear technologist since 2005. She has years of practical experience with patient procedures using radioactive material for the same use(s) as we are requesting authorization as the ARSO. She completed the SNMMI Radiation Safety and Review course in 2023 which included the five radiation safety classroom/lab topics. We have included the certificate of completion.

Item 2:

Please remove the Parkview LaGrange Hospital, 207 N. Townline Rd., LaGrange, IN 46761 address of use. We are no longer providing nuclear medicine services at this facility. The last day of radioactive material use was on 7/17/25. We have enclosed the close-out area and contamination survey results with the diagram. All radioactive sealed sources were transferred to the nuclear department at the 11109 Parkview Plaza Dr., Fort Wayne, IN 46845 facility. We have included the most recent sealed source leak test results.

If you have any questions or require additional information, please contact our Radiation Safety Officer, Sharon Updike, at 517-795-8786 or by e-mail at supdike@mpcphysics.com.

Sincerely,

Angela Hormann

Memo To: Dawn Henderson-Davis
Associate Radiation Safety Officer

From: Angela Hormann
VP Therapy and Diagnostic Services

Sharon Updike, MHP,
DABR Radiation Safety
Officer

Subject: Appointment of ARSO

You, Dawn Henderson-Davis, have been appointed an Associate Radiation Safety Officer. The Radiation Safety Officer, with written agreement from management, will assign specific oversight duties and tasks to you. These duties and tasks are restricted to the types of use for which you are listed on our license.

You are free to raise issues with the Nuclear Regulatory Commission at any time. It is estimated that you will spend 16 hours per week conducting Associate Radiation Safety Officer duties and tasks.

You will report to the Radiation Safety Officer, who retains responsibility for oversight of the entire radiation safety program.
