Rammohan Maikala, Subcommittee Chair  
Technical Advisory Group to TC 159 SC 4  
MSD Solutions Lab  
1121 Spring Lake Dr  
Itasca, IL 60143-3201

SUBJECT: LETTER TERMINATING REPRESENTATION OF DR. BRIAN GREEN TO THE  
NUCLEAR TECHNICAL ADVISORY GROUP TO TECHNICAL COMMITTEE 159  
SUBCOMMITTEE 4

Dear Dr. Maikala:

I am terminating the membership of Dr. Brian Green as the authorized NRC representative on the Technical Advisory Group (TAG) to the Technical Committee (TC) 159 on Ergonomics Subcommittee (SC) 4 "Ergonomics of Human-System Interaction".

NRC has reviewed the ISO standards developed under TC 159/SC 4 and recognizes their value to a wide range of industries. However, given their broad applicability, the standards do not consistently provide the level of technical specificity required for the nuclear sector. Because these documents appropriately serve a diverse international community, the NRC does not wish to influence their scope or level of detail in ways that may not align with the needs of other stakeholders.

The NRC will continue to rely on and reference ISO human factors standards as part of its guidance development process, and we remain supportive of ISO's mission and contributions. Should a specific standard arise where NRC input would be beneficial, please feel free to coordinate with Dr. Green or the NRC Codes and Standards Executive. If appropriate, I would be pleased to consider reappointing him to the Technical Advisory Group (TAG) at that time.

Correspondence should be addressed to:

U.S. Nuclear Regulatory Commission  
ATTN: Dr. Brian Green  
Washington, D.C. 20555  
Telephone: (301) 415-6728  
E-mail: [Brian.Green@nrc.gov](mailto:Brian.Green@nrc.gov)

R. Maikala

2

Thank you very much for providing the NRC with the opportunity to participate in the work of your technical committee.

Sincerely,

Signed by Araguas, Christian  
on 05/08/26

Christian Araguas, NRC Standards Executive  
Office of Nuclear Regulatory Research
