RE: Amendment Request for License #47-15473-01

To whom it may concern,

Please withdraw the amendment request dated March 4, 2026 requesting the addition of Michael Young, M.D., to the above referenced license. We have been unable to obtain a properly completed NRC Form 313A (AUT) from Dr. Young's preceptor. We will submit a new request to add him as an authorized user when we receive the properly completed forms.

If you have any questions regarding this request, please feel free to contact Steve Kirk or myself at the telephone numbers provided below or you may email your questions to me at kim.lowe@vandaliahealth.org.

Thank you for your attention to this matter.
