SUBJECT: ISSUANCE OF REVISION NO. 7 OF THE CERTIFICATE OF COMPLIANCE  
NO. 9337 FOR THE SAFKEG-LS MODEL NO. 3979A PACKAGE

Dear Alex Ferguson:

On August 27, 2025, Agencywide Documents Access and Management System (ADAMS) Accession No. ML25241A001 and ML26139A378), as supplemented on February 3, 2026 (ML26034C103), and March 20, 2026 (ML26079A061 and ML26139A379), Croft Associates Limited (Croft) submitted a request to revise Certificate of Compliance (CoC) No. 9337 for the Safkeg-LS Model No. 3979A package. Croft proposed the following revisions to the CoC:

- Changes to the Safety Analysis Report for Packaging (SARP) to include additional radionuclides in tungsten shielding insert #3983.
- Combine the SARP sections into one document and incorporate some minor clarifications and corrections.
- Add an alternative production method for the lead shielding.
- Add an alternative containment vessel bolting material.

Croft requested that we review the changes to the package against the International Atomic Energy Agency (IAEA) Safety Standards Series No. SSR-6, 2018 edition. Because CoC No. 9337 for Model No. 3979A is a domestic certificate, the staff evaluated the proposed changes to the certificate per its regulations in Title 10 of the *Code of Federal Regulations* (10 CFR) Part 71, which are the applicable regulations for this package (which are not yet aligned with the IAEA SSR-6 2018 edition). Accordingly, compliance with the IAEA SSR-6, 2018 edition regulations was not assessed as part of this review.

Enclosed is the CoC No. 9337, Revision No. 7, for the Safkeg-LS Model No. 3979A package. Changes made to the enclosed certificate are indicated by vertical lines in the margin. The staff's safety evaluation report is also enclosed.

The approval constitutes authority to use the package for shipment of radioactive material and for the package to be shipped in accordance with the provisions of 10 CFR 71.17 and 49 CFR 173.471.

In accordance with 10 CFR 2.390, "Public inspections, exemptions, requests for withholding," a copy of this letter will be available electronically for public inspection in the

U.S. Nuclear Regulatory Commission (NRC) Public Document Room (PDR) or from the Publicly Available Records component of the NRC's ADAMS. ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>. The PDR is open by appointment. To make an appointment to visit the PDR, please send an email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. Eastern Time (ET), Monday through Friday, except Federal holidays.

If you have any questions regarding this communication, please contact Kristina Banovac at: (301) 415-7116, or via email to [Kristina.Banovac@nrc.gov](mailto:Kristina.Banovac@nrc.gov).

Sincerely,

Signed by Diaz-Sanabria, Yoira  
on 06/10/26

Yoira Diaz-Sanabria, Chief  
Storage and Transportation Licensing Branch  
Division of Fuel Management  
Office of Nuclear Material Safety  
and Safeguards
