**Subject:** Additional Information Request re SSM Health St. Clare Hospital-Fenton renewal application, NRC License No. 24-11858-01  
**Date:** Monday, May 11, 2026 3:49:00 PM

---

Good afternoon, Wally:

The NRC has received and reviewed SSM Health St. Clare Hospital-Fenton's (your) April 29, 2025 request for license renewal, as received via e-mail on June 3, 2025. That request is stored in the NRC's Agencywide Document and Management System (ADAMS) at Accession No. ML25154A459.

Upon review, we have determined that the information submitted omitted a response for Item 8, "Training for Individuals Working in Restricted Areas."

As requested in NUREG 1556, Vol. 9, rev. 3, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Medical Use Licenses," pp. 8-42 to 8-43, a response regarding the licensee's training program is expected, as part of the renewal. No response was provided for this item.

**To complete the renewal of the license, please confirm the following statement, as suggested by the NUREG, 1556, Vol. 9, rev. 3, or provide an alternative response regarding your training program:**

*"We have developed and will implement and maintain written procedures for a program for training required under 10 CFR 19.12 for each group of workers, including (i) topics covered, (ii) qualifications of the instructors, (iii) method of training, (iv) method for assessing the success of the training, (v) initial training, and (vi) annual refresher training."*

Please provide additional information via signed and dated letter within 14 days (on or before May 26, 2026) to me via email, at [sara.forster@nrc.gov](mailto:sara.forster@nrc.gov). If you need additional time, or have any questions regarding the request, please do not hesitate to call or email me.

Thank you in advance for your cooperation.

Sincerely yours,

*Sara*
