SUBJECT: LETTER NOMINATING NUCLEAR REGULATORY COMMISSION STAFF TO  
THE AMERICAN NUCLEAR SOCIETY STANDARD COMMITTEE WORKING  
GROUP FOR ANS-35.1

Dear Mr. Hauck,

I would like to nominate Ms. Maurin Scheetz as an authorized U.S. Nuclear Regulatory Commission (NRC) representative and voting member to the American Nuclear Society (ANS) Standards Committee for ANS-35.1 "Advanced Reactor Personnel Selection, Qualification, and Training". Ms. Scheetz's work at the NRC directly involves evaluating operator qualifications, training programs and human-performance considerations for both current and advanced reactor technologies. Ms. Scheetz brings the necessary expertise and experience to support the development of these standards.

In accordance with the Office of Management and Budget Circular No. A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," dated January 27, 2016, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating in consensus standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

However, the NRC's endorsement of these standards, if desired by the NRC, would be part of a separate activity such as incorporation by reference into rulemaking or endorsement in an NRC regulatory guide.

Correspondence to the nominated individuals should be addressed to:

Sincerely,

Signed by Araguas, Christian
