

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

June 4, 2026

Technical Specifications Task Force
11921 Rockville Pike, Suite 100
Rockville, MD 20852

SUBJECT: ACCEPTANCE FOR REVIEW REGARDING TRAVELER TSTF-607,
"CHANGES TO THE QUADRANT POWER TILT RATIO TECHNICAL
SPECIFICATION (PWROG- 22021)" (EPID: L-2026-PMP-0004)

Dear Members of the Technical Specifications Task Force:

By letter dated April 6, 2026 (Agencywide Documents Access and Management System Accession No. ML26096A170), you submitted a request to the U.S. Nuclear Regulatory Commission (NRC) to incorporate Traveler TSTF-607, Revision 0, "Changes to the Quadrant Power Tilt Ratio Technical Specification (PWROG- 22021)," into the standard technical specifications.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that Travelers are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours have been billed accordingly. The NRC staff estimates that the review will require approximately 290 staff hours including project management time.

The NRC staff has completed a preliminary review of your submission and determined it is sufficiently complete and appropriate to initiate a more comprehensive review. The review will generally follow the schedule below.

MILESTONE	SCHEDULE DATE
Issue Request for Additional Information	September 8, 2026
Issue Draft Safety Evaluation	June 3, 2027
Issue Final Safety Evaluation	October 1, 2027

If you have any questions, please contact me at (301) 415-1774 or via email to Michelle.Honcharik@nrc.gov.

Sincerely,

/RA/

Michelle C. Honcharik, Senior Project Manager
Technical Specifications Branch
Division of Safety Systems
Office of Nuclear Reactor Regulation

Project No. 753
