**Subject:** U.S. NRC Materials License #13-00951-03 - Request for Additional Information  
**Date:** Wednesday, June 3, 2026 10:28:00 AM

---

Dr. Foster:

I have reviewed your request dated May 7, 2026, to amend your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 13-00951-03. Upon review, I identified the following areas in which additional or clarifying information is needed:

1. Your request included a partial copy of New York State Department of Health Radioactive Materials License No. 575, Amd. No. 90, identifying the requested physician as an Authorized User of manual brachytherapy sources. A complete copy of the referenced license is needed. Therefore, please resubmit your request with a complete copy of the referenced license.
2. Your request included a partial copy of New York State Department of Health Radioactive Materials License No. 575, Amd. No. 90, identifying the requested physician as an Authorized User of manual brachytherapy sources. Though, the referenced license appears to have been issued over 7 years ago. As such, it is not apparent that the requested physician's training and experience satisfies the recentness of training requirement specified in [Title 10 of the Code of Federal Regulations \(10 CFR\) §35.59](#).

Therefore, please submit documentation of continuing education and experience applicable to training criteria identified in [10 CFR §35.490, "Training for use of manual brachytherapy sources."](#)

Please respond in writing to this request within 15 calendar days. In your signed response letter, please include a reference to your U.S. NRC Materials License No. 13-00951-03 and Control No. 658973.

As you will not receive a hard copy of this request for additional information, please respond with confirmation that you have received this email request.
