**Subject:** Request for Additional Information - Centro de Radioterapia at Hospital Auxilio Mutuo

**Importance:** High

Licensee: Centro de Radioterapia at Hospital Auxilio Mutuo

License No. 52-30937-01

Docket No. 030-36635

Mail Control No. 658370

Dear Aleyda Aponte Garcia and Luis Rivera:

This is in reference to your letter dated March 30, 2026, requesting to amend NRC License No. 52-30937-01. In order to continue our review, we need the following additional information:

1. Kindly complete NRC Form 313A (RSO) for ARSO, which can be accessed at <https://www.nrc.gov/docs/ML1216/ML12164A742.pdf>. Please follow Authorized Medical Physicist (AMP) pathway number 3 and pay close attention to item 3.b, as it specifically requires you to fully address section 5.c. Use the table to detail the user's training in radiation safety, regulatory requirements, and emergency procedures for every type of medical use listed on the license or overseen by the ARSO. If the ARSO will supervise the High Dose-Rate Remote Afterloader (HDR) program, make sure to include training specific to HDR.
2. Additionally, please ensure that you have an ARSO Delegation of Authority Memo on file, as it may be reviewed during a future inspection.

Please respond at your earliest convenience, no later than June 17, 2026.

An electronic version of the NRC's regulations is available on the NRC Web Site at: [www.nrc.gov](http://www.nrc.gov). Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to the NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all the portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please feel free to reach out!

Thank you for your cooperation.

Best,

**Hiba Ahmed**
