Meeting Number: 244 235 514 418 203

Password: kC7rb79S

Teleconference

Bridge Number: 301-576-2978

Conference ID:

Pass Code: 155534002#

Category: This is an open meeting. Public participation is actively sought for this meeting to fully engage the public in a discussion of regulatory issues.

Purpose: The U.S. Nuclear Regulatory Commission (NRC) staff will hold a meeting with representatives from ARC Clean Technology (ARC) to discuss functional containment and sodium fires pertaining to the ARC-100 sodium-cooled fast reactor design. During this meeting, ARC will present information and engage with NRC staff on these key technical aspects of the design to support preapplication discussions.

If you need a reasonable accommodation due to a disability to participate in this meeting or need meeting materials in another format (e.g. braille, large print), please email Reasonable_Accommodations.Resource@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis and the agency may choose between which effective accommodations to provide. At least ten (10) days advance notice is recommended in order for a request to be processed and implemented if approved. However, every effort will be made to address any reasonable accommodations requests received with less notice.

If you have difficulty understanding and/or communicating in English, free language assistance or other aids and services may be available, upon request. Please email lepresources@nrc.gov. Determinations on requests will be made on a case-by-case basis. At least ten (10) days advance notice is recommended in order for a request to be processed and implemented if approved. However, every effort will be made to address any reasonable accommodations requests received with less notice.
