Keith Maestas, Training Manager
Turkey Point Nuclear Power Plant
9760 SW 344th Street
Homestead, FL 33035

SUBJECT: TURKEY POINT NUCLEAR POWER PLANT -- OPERATOR LICENSING
EXAMINATION APPROVAL (05000250/2026301 AND 05000251/2026301)

Dear Keith Maestas:

The purpose of this letter is to provide U.S. Nuclear Regulatory Commission (NRC) approval of the proposed operating test under Title 10 of the *Code of Federal Regulations* (10 CFR) 55.40(b)(4) and to confirm the final arrangements for the upcoming operator licensing examination at the Turkey Point Nuclear Plants, Units 3 and 4.

The NRC has approved the operating test examinations, and the NRC staff will administer the operating test during the week(s) of July 20 – 30, 2026 in accordance with Revision 12 to NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," issued September 2021. The NRC has provided the list of applicants approved to take the examinations to your office.

It is my understanding that the written examination(s) are still under development and review process before finalization; therefore, the authorization for the final written examination(s), and permission for your staff to administer the written examination(s), will be issued at a later date as separate correspondence.

The examinations have undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examinations meet the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering the examination(s), you also agree that the examination(s) meet NUREG-1021 guidelines and are appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that these examinations are not appropriate for licensing operators at your facility, do not administer the examination(s) and contact me at (404) 997-5171 (email: Christopher.Safouri@nrc.gov).

Please contact your NRC Chief Examiner, Mr. Michael Meeks, at (404) 997-4467 (email:), if you have questions or identify any errors or changes in the license level (reactor operator or senior reactor operator) or type of examination (partial or complete written examination or operating test, or both) specified for each applicant approved to take the examination(s). Michael.Meeks@nrc.gov

Sincerely,

A handwritten signature in dark ink, appearing to read "Chris Safouri", with a stylized flourish at the end.

Signed by Chris Safouri on 07/20/26

Christopher Safouri, Acting Chief
Operations Branch
Division of Reactor Safety
