Subject: Request to add an Authorized User, Dr. Sen Lu - NRC license no. 13-09649-02
Date: Wednesday, September 17, 2025 11:06:00 AM
Attachments: 313 a AUD.pdf
313 A AUT.pdf

Good morning,

I reviewed your amendment request dated 7/24/2025.

I have some questions pertaining to the proposed Authorized User, Dr. Sen Lu, for 35.200 and 35.300 material use. I can accept the information attested by Glenn Hoots MD; however, the information is incomplete. I compared the information provided with NRC Forms 313A(AUD) and A(AUT) and noted some deficiencies. Please provide an additional letter supplementing your request dated 7/24/25 or complete forms 313A(AUD) and A(AUT) indicating the items below.

1. For 10 CFR 35.290 material use, please provide the following (please also review the attached Form 313A(AUD)):
 - Location and dates for the classroom and laboratory training
 - Location and dates for supervised work experience
 - The name of the supervising individual and the license/permit number
 - Complete attestation and signature by Glenn Hoots MD (or AU) as outlined in Second Section, on page 4 of the NRC Form 313A(AUD).

2. For 10 CFR 35.390 (limited to I-131) material use, please provide the following (please also review the attached Form 313A(AUT)):
 - Location and dates for the classroom and laboratory training
 - Location and dates for supervised work experience
 - The name of the supervising individual and the license/permit number
 - The location and dates of administering 6 cases of sodium iodide I-131 (the log of administering 6 cases of sodium iodide I-131 is not attached)
 - Complete attestation and signature by Glenn Hoots MD (or AU) as outlined in Fifth Section, on page 6 of the NRC Form 313A(AUT).

Please acknowledge receipt of this email and let me know if you have any questions.

Please provide your response by October 8, 2025. You may email your response directly to me.

Thank you

Magdalena R. Gryglak
