RE: Affidavit on Withhold from Public Disclosure under 10 CFR 2.390

I, Richard Wassenaar, in my capacity as Director Regulatory Affairs & EHS of Nordion (Canada) Inc. (Nordion), have been duly authorized to apply for withholding from public disclosure of proprietary information by and on behalf of Nordion, under 10 CFR 2.390, to depose and say:

1. I, Richard Wassenaar, am the Director Regulatory & EHS of Nordion.
2. The following information contained within Nordion's response to the request for supplemental information from Dr. Ryan Vierling of the Department of Transport, dated June 26, 2026, are the property of Nordion. This document contains proprietary information related to the design, materials, dimensions, processes and procedures related to Nordion's business.
3. Nordion has expended extensive funds and manpower in developing the aforementioned information and any release for disclosure of information to third parties would enable third parties to use this information to fabricate, use and register similar devices and processes while reducing their development risk and cost and gaining a commercial advantage. This could compromise Nordion's ability to compete in the marketplace. Therefore, Nordion submits that the following should be withheld from public disclosure:

The following document, in its entirety:

- Nordion letter to Dr. Ryan Vierling dated August 4, 2026
4. The information has been held in confidence by Nordion and any disclosure thereof has been accompanied by a confidentiality agreement protecting the trade secrets contained therein.
 5. The information is being transmitted to the Department of Transport and subsequently the Nuclear Regulatory Commission of the United States in confidence.
 6. This information is not available in public sources.
 7. The information contained in this affidavit is to the best of my knowledge, true and correct.

Sworn before me this 5th day of August, 2026 in the city of Ottawa, Ontario, Canada

Justin Tremblay

Notary Public in and for the
Province of Ontario, Canada

Richard Wassenaar
