Subject: Natura Resources Online Portal Agreement

Enclosed is an executed Information Access Agreement between Natura Resources LLC and the U.S. Nuclear Regulatory Commission (NRC). This agreement supports the use of an online reference portal for Natura Resources to give limited read-only access to authorized NRC staff during the course of NRC reviews. The portal enables the NRC staff to access reference materials which would otherwise require the NRC staff to travel to Natura offices to review. If NRC staff need any information viewed on the portal to support the NRC review or findings, Natura will submit that information in accordance with Title 10 of the Code of Federal Regulations Section 50.4, "Written communications."

If you have questions, please contact me at ben@naturaresources.com.

Regards,

Benjamin Beasley
Director of Licensing
