Vallecitos updated consultation - CA SHPO final.pdf

Mr. Sun,

Further to this consultation, I wanted to let you know that today I was made aware of the requested timeline and process in the attached letter. I understand that our response letter dated July 21 concurring with NRC's findings did not formally address the request. My apologies for the oversight.

As we discussed earlier this week via phone, while we do our best to accommodate requests for expedited review timelines, considering our current workload, staffing, and statutory timelines for the many reviews in our office, I am not sure we could guarantee all of the suggested timelines as requested. I do note, however, that for the consultations this year, our response times have been before the time allowed in the regulations, and in the case of the last submission, prior to your requested date. We have and will continue to keep this consultation on as expedited of a path as possible.

We are always willing to discuss comments and provide clarification, formal submission in writing is necessary to ensure that the documentation meets the requirements of the statues, for transparency of process, etc.

At this point, I again suggest that NRC review the comments and suggested changes sent today. Once you have done so, we can set a time to meet to discuss, provide any clarifications, and further suggestions as required.

Sincerely,

Julianne Polanco
