SUBJECT: UPDATED INSPECTION PLAN FOR WOLF CREEK GENERATING STATION
(REPORT 05000482/2026005)

Dear Cleve Reasoner:

The enclosed inspection plan lists the inspections scheduled through June 30, 2028, for Wolf Creek Generating Station. The U.S. Nuclear Regulatory Commission (NRC) provides the inspection plan to allow for the resolution of any scheduling conflicts and personnel availability issues. Routine inspections performed by resident inspectors are not included in the inspection plan. The inspections listed during the last twelve months of the inspection plan are tentative and may be revised. The NRC will contact you as soon as possible to discuss changes to the inspection plan should circumstances warrant any changes.

This letter and its enclosure will be made available for public inspection and copying at [ADAMS Public Documents | NRC.gov](https://www.adams.nrc.gov) and at the NRC Public Document Room in accordance with Title 10 of the Code of Federal Regulations 2.390, "Public Inspections, Exemptions, Requests for Withholding."

Please contact me at 817-200-1426 with any questions you have regarding this letter.

Sincerely,
