NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 27, 2026

Calvin Kammerer
Radiation Safety Officer
Trihydro Corporation
406 E Park Ave, Ste 2
Anaconda, MT 59711

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 25-35244-01

Dear Calvin Kammerer:

By NRC Form 314, dated August 24, 2026, you informed the U.S. Nuclear Regulatory Commission (NRC) that Trihydro Corporation wished to terminate NRC Radioactive Materials license number 25-35244-01. The NRC Form 314, dated August 24, 2026, stated that all radioactive materials were transferred to NRC licensee Qal-Tek Associates, LLC, on July 24, 2026.

The supporting documentation listed in NRC Form 314 provided a statement that all radioactive material was transferred to NRC licensee Qal-Tek Associates, LLC, on July 24, 2026. Your RIV radioactive materials license authorized radioactive materials use and storage at: 1) 406 East Park Avenue, Suite 2, Anaconda, Montana, 59711, and 2) Temporary Jobsites (TJS) authorization. On the NRC Form 313, you included information under "C. *SURVEYS PERFORMED AND REPORTED*": Item 3. *A radiation survey is not required as only sealed sources were ever possessed under this license.* Based on the latest leak test, transfer, and transfer receipt documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material was transferred and no licensed material remains. Therefore, 406 East Park Avenue, Suite 2, Anaconda, Montana, 59711, can be released for public access. Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 11 to License No. 25-35244-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(a)(10)(viii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html> address.

Thank you for your cooperation.

Sincerely,

**LATISCHA
