September 23, 2026

Technical Specifications Task Force
11921 Rockville Pike, Suite 100
Rockville, MD 20852

SUBJECT: ACCEPTANCE FOR REVIEW REGARDING TRAVELER TSTF-608, "RELOCATE MAIN STEAM LINE (MSL) AREA TEMPERATURE AUTOMATIC ISOLATION FUNCTIONS" (EPID: L-2026-PMP-0005)

Dear Members of the Technical Specifications Task Force (TSTF):

By letter dated April 6, 2026 (Agencywide Documents Access and Management System Accession No. ML26096A210), the TSTF submitted a request to the U.S. Nuclear Regulatory Commission (NRC) to incorporate Traveler TSTF-608, Revision 0, "Relocate Main Steam Line (MSL) Area Temperature Automatic Isolation Functions, into the standard technical specifications.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that Travelers are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours have been billed accordingly. The NRC staff estimates that the review will require approximately 450 staff hours including project management time.

The NRC staff has completed a preliminary review of your submission and determined it is sufficiently complete and appropriate to initiate a more comprehensive review. The review will generally follow the schedule below.

MILESTONE	SCHEDULE DATE
Issue Request for Additional Information	12/18/2026
Issue Draft Safety Evaluation	08/02/2027
Issue Final Safety Evaluation	11/29/2027

If you have any questions, please contact Tarico Sweat at (301) 415-3715 or via email to Tarico.Sweat@nrc.gov

Sincerely,

/RA/

Tarico Sweat, Reactor Systems Engineer
Technical Specifications and Plant Systems Branch
Division of Risk Assessment and Safety Systems
Office of Nuclear Reactor Regulation
