RE: Request for Written Consent to Completed Indirect Transfer of Control
NRC Materials License No.: 49-35308-01

Dear Sir or Madam:

William H. Smith and Associates, Inc. ("WHS") respectfully submits this request for the U.S. Nuclear Regulatory Commission's review and written consent under 10 CFR 30.34(b) concerning the indirect transfer of control of NRC Materials License No. 49-35308-01. On April 30, 2026, Vistal Company ("Vistal") acquired 100% of the outstanding stock of WHS. As a result, Vistal became the parent company exercising ultimate corporate control over WHS.

WHS remains a separate legal entity and remains the named NRC licensee. The license itself, the licensed material, and the licensed operations were not transferred to a different operating entity. This filing addresses the change in WHS's ultimate ownership and control resulting from the stock acquisition.

1. Parties and Transaction Structure

Licensee: William H. Smith and Associates, Inc., 1515 9th Street, Suite A, Rock Springs, Wyoming 82901

Parent Company: Vistal Company, 444 Sheyenne Street, Suite 301, West Fargo, North Dakota 58078

Transaction: Acquisition by Vistal of 100% of the outstanding stock of WHS

Effective Date: April 30, 2026

Federal Employer Identification Number (Vistal): 45-4079633

Immediately before the transaction, WHS was independently owned. Immediately after the transaction, Vistal owned 100% of WHS. WHS continued in existence and continued its licensed operations under the same legal name and NRC license number.

2. Continuity of the Licensed Program

The ownership change did not alter the scope or manner of WHS's licensed activities. There were no changes resulting from the transaction to the licensed locations; possession, use, handling, storage, or control of licensed material; facilities or equipment; radiation safety program; operating or emergency procedures; waste-management practices; training program; or personnel and duties associated with the licensed program.

Day-to-day responsibility for and control of licensed activities remain with WHS. Vistal's role is that of the parent company exercising ultimate corporate oversight; it does not replace WHS as the NRC licensee.

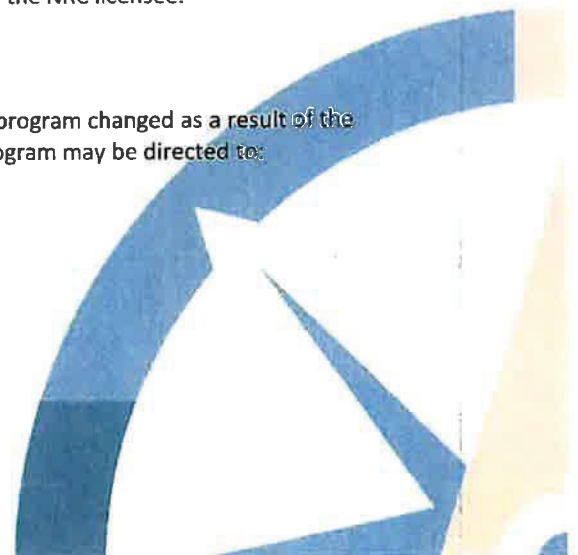

3. Personnel and NRC Contact

No personnel identified in the license or responsible for the radiation safety program changed as a result of the transaction. NRC communications concerning this request or the licensed program may be directed to:

Contact: Brandon Reed

Email: brandon.reed@whsmithpc.com

Telephone: 307-840-4014

a Vistal company

September 3, 2026

4. Records, Compliance, and Decommissioning Responsibility

Because WHS remains the licensee and continues operating at the same licensed locations, all records associated with the licensed program remain in WHS's custody and control. This includes records concerning inventories, accountability, calibrations, leak tests, surveys, public dose, waste disposal, and safe and effective decommissioning, as applicable. The transaction did not terminate licensed activities, transfer a licensed facility, or change responsibility for compliance, corrective action, decontamination, or decommissioning. WHS remains responsible for its existing obligations under the license and applicable NRC requirements. No existing decommissioning funding plan or financial-assurance arrangement was changed as a result of the transaction.

5. Commitments and Acknowledgments

WHS and Vistal agree to the change in ownership and control described in this letter. Vistal acknowledges the conditions of NRC Materials License No. 49-35308-01 and agrees that WHS will continue to comply with all applicable constraints, conditions, requirements, representations, and commitments previously made to NRC. Vistal also acknowledges responsibility, through its control of WHS, for ensuring that WHS has adequate resources to conduct licensed activities safely and to satisfy applicable compliance and decommissioning obligations. Vistal has been informed of any open inspection or enforcement matters, if any; WHS remains responsible for required corrective actions, and Vistal accepts responsibility for ensuring they are addressed.

6. Requested NRC Action

WHS respectfully requests that NRC review the completed indirect transfer of control and provide written consent confirming that WHS may continue operating under NRC Materials License No. 49-35308-01 under Vistal's ownership. WHS also requests confirmation whether NRC requires a conforming license amendment or any supplemental information.

The parties certify that this request is true and complete to the best of their knowledge and will promptly notify NRC of any material change.

Sincerely,

Will Dolinar, PLS

President

William H. Smith and Associates, Inc.

Licensing and/or Technical Reviewer or Branch

S. Collins

This is to acknowledge receipt of your: ☒ Letter and/or ☐ Application Dated: 09/09/2026

The initial processing, which included an administrative review, has been performed.

☒ Amendment ☐ Termination ☐ New License ☐ Renewal

☐ There were no administrative omissions identified during our initial review.

☐ This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.

☐ Your application for a new NRC license did not include your taxpayer identification number. Please complete and submit NRC Form 531, Request for Taxpayer Identification Number, located at the following link: <http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>
Follow the instructions on the form for submission.

☐ The following administrative omissions have been identified:

Your application has been assigned the above listed MAIL CONTROL NUMBER. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
