

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

September 29, 2026

Mr. David Knight, EHS Manager
LEDVANCE, LLC
181 Ballardvale St, Ste. 203
Wilmington, MA 01887

SUBJECT: LEDVANCE, LIMITED LIABILITY COMPANY REQUEST FOR ADDITIONAL
INFORMATION

Dear Mr. Knight:

This letter refers to your application dated July 29, 2026, requesting to renew your U.S. Nuclear Regulatory Commission (NRC) exempt distribution license no. 20-35375-01E. We do not have sufficient information to complete the review of your application. In order to continue our review, we need additional information as stated below.

Title 10 of the *Code of Federal Regulations* (10 CFR) Section 32.14 requires the applicant to submit sufficient information regarding product(s) pertinent to evaluation of potential radiation exposure, to demonstrate that the product(s) will meet the safety criteria set forth in 10 CFR Section 30.15. Therefore, please provide the following information:

1. A copy of possession and use license.
2. Sufficient information regarding each product pertinent to evaluation of potential radiation exposure, including:
 - a. Chemical and physical form and maximum quantity of byproduct material in each product.
 - b. Details of construction and design of each product.
 - c. Method of containment or binding of byproduct material in product.
 - d. Procedures for prototype testing to demonstrate that the material will not become detached from each product or that byproduct material will not be released under severe conditions.
 - e. Results of prototype testing.
 - f. Quality control procedures to be followed in the fabrication and the quality control standards each product will be required to meet (10 CFR 32.15).
 - g. Proposed method of labeling or marking each unit and its container with the identification of the manufacturer or initial transferor and the byproduct material.
 - h. For each product with limits specified in 10 CFR 30.15, the radiation level and method of measurement.
 - i. Any additional information, studies, and tests regarding product safety.
3. Assurance that each product will contain no more than the quantity of byproduct material specified for that product in 10 CFR 30.15.

4. Assurance that each product or material is not likely to be incorporated in any food; beverage; cosmetic; drug; or other commodity or product designed for ingestion or inhalation by, or application to, a human being.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access Management System (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html>.

We will continue our review upon receipt of this information. If we do not receive a reply from you within 30 calendar days from the date of this letter, we will consider your application as having been abandoned by you. This action would be without prejudice to the resubmission of another application with the required information.

If you have any questions, you may contact Kenneth Brenneman at (301) 415-4094, or by electronic mail at Ken.Brenneman@nrc.gov.

Sincerely,

KENNETH BRENNEMAN
