Louisiana Energy Services, LLC
NRC Docket No. 70-3103

Subject: Enrichment Technology Company (ETC) Temporary Security Plan for Sensitive Shipments

As discussed previously with the NRC, one of our carriers is losing their Facility Clearance as a result of a change in ownership.

To ensure continuity of security activities during this transition period, ETC is implementing the enclosed Temporary Security Plan. This plan is intended to bridge the period between the termination of the previous Facility Clearance and approval of a new Facility Clearance or new carrier, while maintaining appropriate protection, control, and oversight of regulated materials and activities.

Enclosure 1 includes the ETC Temporary Security and contains Security-Related Information and disclosure to the public could present a security vulnerability. UUSA requests that the enclosure be withheld from public disclosure in accordance with 10 CFR 2.390(d)(1).

Should there be any questions, please contact Barry Love, Licensing Manager, at 575.394.4482.

Respectfully,

**Wyatt
Padgett**
