Subject: BlueCore Energy, Inc. - Transmittal of Regulatory Engagement Plan
Docket No. 99902177

Dear Megan,

BlueCore Energy, Inc. ("BlueCore") hereby submits the enclosed Regulatory Engagement Plan (BLU-PLAN-000001, Revision 0) to the U.S. Nuclear Regulatory Commission ("NRC") in support of pre-application activities under Docket No. 99902177. This plan describes BlueCore's approach to regulatory engagement for a marine-based small modular reactor and outlines the planned sequence of topical reports, white papers, and licensing submittals.

Pursuant to 10 CFR 2.390, BlueCore requests that the information identified as proprietary in Enclosure 2 be withheld from public disclosure. The basis for this request is set forth in the affidavit provided as Enclosure 3 (BLU-CORR-000004), executed by Megan Moyette, Licensing and Safety Lead, BlueCore Energy, Inc. The affidavit identifies the proprietary information under the criteria of 10 CFR 2.390(a)(4) and demonstrates that the information has been held in confidence, has commercial value, and would cause competitive harm if disclosed.

A non-proprietary version of the Regulatory Engagement Plan, suitable for public disclosure, is provided as Enclosure 1. Proprietary information has been redacted and is denoted by double brackets (e.g., [[]]). The non-proprietary version maintains page-for-page correspondence with the proprietary version.
