RE: Request for License Amendment - Transfer of Control / Change of Ownership

License No.: 11-29385-01

Docket No.: 030-38268

Current Licensee: Eagle Rock Engineering and Land Surveying, PC

Transferee: EGLRK Ventures, LLC, d/b/a Eagle Rock Engineering and Land Surveying

Dear NRC Licensing Staff:

Eagle Rock Engineering and Land Surveying respectfully submits this request for an amendment to NRC Materials License No. 11-29385-01 concerning a change of ownership and transfer of control of the licensed operation.

The company formerly operated as Eagle Rock Engineering and Land Surveying, PC, under the ownership and control of Kurt Roland. Effective 01/01/2025, ownership of the business was transferred to Adam Snarr and Caden Fuhriman through EGLRK Ventures, LLC, which now does business as Eagle Rock Engineering and Land Surveying.

The licensed operations have continued at the same location and under the same Radiation Safety Program. Chad Bare continues to serve as the company's Radiation Safety Officer (RSO). This request is intended to formally notify the NRC of the ownership and control change and request the appropriate amendment to NRC Materials License No. 11-29385-01.

In accordance with NUREG-1556, Volume 15, Revision 1, Appendix E, the following information is provided in response to the NRC's nine requested items.

1. Organizational Changes, Ownership, and Licensee Information

Ownership and control of the company changed from Kurt Roland, operating as Eagle Rock Engineering and Land Surveying, PC, to Adam Snarr and Caden Fuhriman through EGLRK Ventures, LLC. Adam Snarr and Caden Fuhriman each hold a 50% ownership interest in EGLRK Ventures, LLC.

Kurt Roland retains no ownership interest, voting rights, or management authority in EGLRK Ventures, LLC or Eagle Rock Engineering and Land Surveying. As part of the purchase transaction, Mr. Roland provided seller financing and currently holds a promissory note associated with the purchase. His interest is solely that of a creditor. He does not possess authority to establish corporate policy, direct company operations, or exercise control over NRC-licensed activities.

Legal Entity: EGLRK Ventures, LLC
DBA: Eagle Rock Engineering and Land Surveying
Address: 1331 Fremont Avenue, Idaho Falls, Idaho 83402
Business Telephone: (208) 542-2665
Radiation Safety Officer: Chad Bare
RSO Telephone: (208) 390-8150
RSO Email: cbare@eaglerockengineering.com

Effective date of ownership transaction: 01/01/2025

Following the transaction, Adam Snarr and Caden Fuhrman, as equal owners of EGLRK Ventures, LLC, possess the authority to establish company policy and exercise control over the licensed operation. The company continues to conduct business as Eagle Rock Engineering and Land Surveying.

2. Changes in Personnel or Duties Related to the Licensed Program

There have been no changes to personnel or duties associated with the NRC-licensed Radiation Safety Program as a result of the ownership transfer. Chad Bare continues to serve as Radiation Safety Officer and continues to have responsibility for implementation and administration of the Radiation Safety Program. There are no proposed changes to the existing radiation safety training program as a result of the ownership transfer.

3. Changes in Location, Facilities, Equipment, Radiation Safety Program, Use, Possession, Waste Management, or Procedures

There are no proposed changes to the location, facilities, licensed equipment, Radiation Safety Program, authorized uses, possession of licensed material, waste management practices, or operating procedures as a result of the ownership transfer. Licensed activities will continue at the currently authorized locations and in accordance with NRC Materials License No. 11-29385-01 and the commitments and procedures incorporated into the license.

4. Status of Facilities, Equipment, and Radiation Safety Program

The company's facilities, licensed equipment, and Radiation Safety Program remain active and operational. There is [no known radioactive contamination associated with the licensed operations / describe any known contamination, if applicable], and no decontamination is anticipated as part of the ownership transfer. Required calibrations, leak tests, surveys, training, quality-control activities, inventories, audits, and associated Radiation Safety Program records have continued to be maintained in accordance with the NRC license and applicable requirements.

5. Decommissioning Funding Plan and Financial Assurance

The ownership transfer does not result in a change to any applicable decommissioning funding plan or financial assurance requirements associated with NRC Materials License No. 11-29385-01.

6. Transfer of Decommissioning and Radiation Safety Records

EGLRK Ventures, LLC confirms that all records relating to the safe and effective decommissioning of facilities associated with NRC Materials License No. 11-29385-01, including applicable radiation surveys and records concerning fixed or removable contamination, will be retained and maintained by the transferee as required by NRC regulations. All applicable Radiation Safety Program and licensed-material records will remain with the licensed operation.

7. Agreement of Transferor and Transferee

The transferor, Kurt Roland / Eagle Rock Engineering and Land Surveying, PC, and the transferee, EGLRK Ventures, LLC, through its owners Adam Snarr and Caden Fuhrman, acknowledge and agree to the transfer of control of the NRC-licensed material and activities. EGLRK Ventures, LLC has been informed of its responsibility for compliance with NRC Materials License No. 11-29385-01 and applicable NRC regulations. EGLRK Ventures, LLC has also been made aware of and understands its responsibility for addressing applicable inspection findings or resulting enforcement actions.

8. Acceptance of Existing License Conditions and Commitments

EGLRK Ventures, LLC agrees to abide by all applicable constraints, conditions, requirements, representations, and commitments associated with NRC Materials License No. 11-29385-01 and the existing Radiation Safety Program. Except for the requested changes concerning the legal entity, ownership, and control of the licensed operation, no changes to the currently authorized licensed program are requested as part of this amendment.

9. Financial Qualification for Fuel Cycle Facilities

Not applicable. Eagle Rock Engineering and Land Surveying is not a fuel cycle facility.

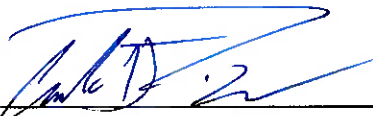

Request for NRC Action

Eagle Rock Engineering and Land Surveying respectfully requests that the NRC review the information provided above and amend NRC Materials License No. 11-29385-01 as necessary to reflect the change in ownership and control from Eagle Rock Engineering and Land Surveying, PC / Kurt Roland to EGLRK Ventures, LLC, d/b/a Eagle Rock Engineering and Land Surveying.

The company is submitting this information to bring the license information into alignment with the current ownership and control structure and to ensure continued compliance with NRC requirements.

Please contact Chad Bare, Radiation Safety Officer, at (208) 390-8150 or cbare@eaglerockengineering.com if additional information or documentation is required to complete the NRC's review.

Sincerely,

Caden Fuhriman
