Docket Number : 3039202

License Number : 11-35569-01

Licensee Name : Idaho Falls Community Hospital, LLC

RE: Request for NRC Consent to Change of Control
NRC License No. 11-35569-01 – Idaho Falls Community Hospital
Information Submitted per NUREG-1556, Vol. 15, Appendix E

Dear Mr. Gonzalez:

Thank you for your guidance regarding this matter. Idaho Falls Community Hospital (the “Licensee”) submits this letter to request the U.S. Nuclear Regulatory Commission’s (NRC) written consent to a change of control of NRC License No. 11-35569-01, and provides the information requested in the Information Needed for Transfer of Control checklist (NUREG-1556, Volume 15). An updated organizational chart is enclosed.

Background

Effective September 15, 2026, SMBI Idaho, LLC (“Transferor”), a subsidiary of Surgery Partners with corporate offices at 340 Seven Springs Way, Brentwood, TN 37027, sold all of its remaining ownership interest in Idaho Falls Community Hospital to IHC Health Services, Inc. (“Transferee”), with corporate offices at 36 South State Street, Salt Lake City, UT 84111. The two entities were previously co-owners of the hospital, with Surgery Partners as majority owner. Following the transaction, IHC Health Services, Inc. holds full ownership. The hospital’s existing identifying numbers (EIN, PTAN, NPI) remain unchanged.

The Licensee is providing the following responses in the order of the checklist.

1. Planned Changes in Organization

The change is a transfer of ownership interest (sale of shares) from SMBI Idaho, LLC to IHC Health Services, Inc., as described above. This is not a name-change-only request; the facility name, licensee name, and mailing address are unchanged:

Idaho Falls Community Hospital
2327 Coronado Street, Idaho Falls, ID 83404
Telephone: 208-528-1000

The hospital’s management and Board changes resulting from the transaction are reflected in the enclosed updated organizational chart. Licensee contact for this request: Casey Jackman, Chief Operating Officer; telephone 208-709-2317; email cajackman@ifcommunityhospital.com.

2. Changes in Personnel or Duties

No changes to personnel or duties related to the licensed program are planned. The Radiation Safety Officer, authorized users, and support staff remain in their current roles, and their qualifications, training, and the training program are unchanged.

3. Changes in Location, Facilities, Equipment, or Procedures

No changes are planned to the location of use, facilities, equipment, radiation safety program, licensed activities, possession limits, waste management, or procedures. The Nuclear Medicine program continues to operate as currently licensed.

4. Status of Facilities, Equipment, and Radiation Safety Program

The facilities, equipment, and radiation safety program remain unchanged and in service. There is no known contamination requiring decontamination before or as a result of the transfer; waste is managed through the existing decay-in-storage program. Calibrations, leak tests, area surveys, wipe tests, training, quality control, and all related records are current and will continue to be performed and maintained in accordance with NRC regulations, license conditions, and established procedures.

5. Decommissioning Funding and Financial Assurance

The transfer does not change the current decommissioning funding plan or other financial assurance documents associated with the license, and no revised plan is being submitted. To the extent any financial assurance instrument is associated with the license, the Licensee confirms it will be held in the Transferee's name, and, as required by 10 CFR 30.35(f), the Licensee will submit any revised instruments within 30 days.

6. Transfer of Records

The Licensee confirms that all records concerning the safe and effective decommissioning of the facility, including surveys of ambient radiation levels and fixed and removable contamination (with methods and sensitivity), will be transferred to the Transferee or to the NRC, as appropriate. These records remain on site at the facility.

7. Agreement of Transferor and Transferee

The Transferor and Transferee agree to the transfer of control of the licensed material and activities and to the conditions of the transfer, as confirmed by the Licensee on behalf of both parties. The Transferee has been made aware of its responsibility for the licensed program, including any open inspection items and possible resulting enforcement actions. The Licensee acknowledges that there are no open inspection items, enforcement actions, or unresolved compliance issues at this time.

8. Commitment of Transferee

IHC Health Services, Inc. agrees to abide by all constraints, conditions, requirements, representations, and commitments of the Transferor and the Licensee under NRC License No. 11-35569-01, including the radiation safety program, personnel training, and records retention requirements.

9. Financial Qualifications (Fuel Cycle Facilities)

Not applicable. The Licensee is a hospital nuclear medicine program and is not a fuel cycle facility.

Based on the above, the Licensee respectfully requests NRC's written consent to this change of control. Please contact me at 208-709-2317 or cjackman@ifcommunityhospital.com if additional information is needed.

Sincerely,

Casey Jackman
Chief Operating Officer
Idaho Falls Community Hospital

Licensing and/or Technical Reviewer or Branch

S. Collins

This is to acknowledge receipt of your: ☒ Letter and/or ☐ Application Dated: 10/02/2026

The initial processing, which included an administrative review, has been performed.

☒ Amendment ☐ Termination ☐ New License ☐ Renewal

☐ There were no administrative omissions identified during our initial review.

☐ This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.

☐ Your application for a new NRC license did not include your taxpayer identification number. Please complete and submit NRC Form 531, Request for Taxpayer Identification Number, located at the following link: <http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>
Follow the instructions on the form for submission.

☐ The following administrative omissions have been identified:

Your application has been assigned the above listed MAIL CONTROL NUMBER. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
