**Freedom of Information Act (FOIA) and Privacy Act (PA) Requests and Appeals Received
During the Period of September 14 – September 18, as submitted by requester.**

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2026-000435	Stephenson, William	-	Hello, I have previously reached out to the NRC Public Document Room in an attempt to find US nuclear reactor radioactive effluent data. Some of the information I requested was not available on ADAMS, the public search database, but I was provided with accession numbers and asked to submit a FOIA request. The information data shall include: Reactor, Year, Report Type, Accession Number. I would like to request the following full reports in digital format. I thank you for your time and attention to this matter. Data Start: Reactor, Year, Report Type, Accession Number; Arkansas 1 & 2, 1997, Semi-Annual (Q1-Q2), ML061450265; Arkansas 1 & 2, 1997, Semi-Annual (Q3-Q4), ML061280583; Braidwood 1 & 2, 1996, Annual, ML14295A397; Calvert Cliffs 1 & 2, 1998, Annual, ML062710111; North Anna 1 & 2, 1998, Annual, ML060760400; Oyster Creek, 2003, Annual, ML040640610; H.B. Robinson 1, 1994, Semi-Annual (Q1-Q2), ML060190168; H.B. Robinson 1, 1994, Semi-Annual (Q3-Q4), ML060240376; H.B. Robinson 1, 1996, Semi-Annual (Q3-Q4), ML060310102; Columbia, 2003, Annual, ML040680988; Data End.	09/14/2026
FOIA-2026-000436	Clifford, Danny	The American Registry of Radiologic Technologists	I request a data extract from the Nuclear Material Events Database limited to events reported by the State of North Carolina, covering January 1, 2010, through the present. For each record, I request the following fields where populated: event date; report date; NMED item number; event type or category; licensee name; licensee city; license type or modality; the narrative event description; the identified cause or causes; the licensee's corrective actions; the Agreement State's response and any enforcement action; and the event's open or closed status. The basis for this request is the NRC's 2022 IMPEP report on the North Carolina program (ADAMS Accession No. ML22230D060), which documents at page 10 that North Carolina received 104 incident reports and notified the	09/14/2026

FOIA-2026-000436 (continued)			NRC Headquarters Operations Center of 38 of them between March 10, 2018 and May 6, 2022, and which confirms at the same page that North Carolina reports incidents to NMED.	
FOIA-2026-000437	Pemble, Brandon	AvantGarde, LLC	Dear FOIA Officer, Pursuant to the Freedom of Information Act, I request copies of the following records related to Solicitation No. 31310022Q0022, Human Resources (HR) Support Services, and the resulting award 31310022F0027 to Business Management Associates, Inc.: 1. The Final Source Selection Decision Document (SSDD), Award Decision Memorandum, or equivalent final award determination document. 2. The Final Consensus Technical Evaluation Report. 3. Records identifying the total number of offerors that submitted proposals or quotations. 4. Records identifying the names of all offerors that submitted proposals or quotations, to the extent releasable under FOIA. **Please let me know if there are any revisions to this request that would significantly expedite its processing** If any portion of the requested records is exempt from disclosure, please release all reasonably segregable non-exempt portions. Electronic copies are preferred. Thank you for your assistance.	09/14/2026
FOIA-2026-000438	Phillips, Patrick	Pincus Technologies, Inc. d/b/a Tarly	Dear FOIA Officer, Pincus Technologies, Inc. d/b/a Tarly ("Tarly") submits this request on its own behalf pursuant to the Freedom of Information Act, 5 U.S.C. § 552. Tarly requests access to the following records: Tarly requests copies of the following existing, final agency records for the procurement identified below. Contract / PIID: 31310023F0028 Awardee: LEIDOS, INC. Awarding component: NUCLEAR REGULATORY COMMISSION Contracting office: NUCLEAR REGULATORY COMMISSION Original award signed: 2023-03-29 Parent vehicle / agreement: NRCHQ1017A0007 Public reference: https://sam.gov/workspace/contract/award/view/31310023F0028?agencyID=3100&modNumber=P00028&transactionNumber=0&refIdvPiid=NRCHQ1017A0007&idvAgencyID=3100 Public award/modification description (locator only): GLINDA BPA CALL FOR END USER	09/14/2026

FOIA-2026-000438 (continued)			COMPUTING (EUC) SERVICES Scope: the original award identified above, signed on 2023-03-29. Later modifications and option exercises are outside this request. The requested records are the final versions retained in the file for this already-awarded procurement. The public description may describe a later modification; it does not expand this request to that modification. This request concerns this individual order, not the acquisition file for the entire parent vehicle or agreement. 1. The final order-level selection or award-decision record, including any fair-opportunity decision or limited-sources justification, if applicable. 2. The final government technical evaluation report and source selection decision document for this order, if prepared. 3. The final price negotiation memorandum or other final government determination of price reasonableness for this order, if prepared. 4. The final independent government cost estimate prepared for this order, if one was prepared. This request is limited to the records enumerated above. Tarly is not requesting drafts, internal emails, contractor proposals, or records already publicly available. If an enumerated record is already public, a direct link is sufficient. If a named record does not exist, please process the remaining items; no new record need be created. Individual personnel, medical, student, taxpayer, immigration, benefit and investigative case records are outside this request. System credentials, security configurations, vulnerability details, operational security procedures and facility/security technical drawings are also outside its scope. Only segregable unclassified acquisition decision and pricing records are sought. Classified information, weapons design, technical research results and scientific deliverables are outside the scope of this request. Rolling productions are welcome. If any single item would materially delay the response, please release the remaining items first. Requester contact telephone:. Tarly is a member of the news media and therefore requests a waiver of all fees except the reasonable standard charges for document

FOIA-2026-000441	Perusic, Joseph	-	Request for Federal Oversight Records Relevant to Long-Term Childhood Cancer Survivors (1950–1970 Radiation-Era Governance) I request access to federal records related to radiation oversight, pediatric oncology coordination, and a specific 1965 pediatric surgical pathology case involving right-kidney Wilms tumor with extensive vascular invasion. This request seeks historical federal oversight documentation and does not seek personal medical records or compensation. Requested Record Categories Please search for records from January 1, 1950 through December 31, 1970 that meet one or more of the following criteria: Radiation-oversight records created or maintained by the Atomic Energy Commission (AEC), Nuclear Regulatory Commission (NRC), or predecessor/successor agencies that contain, reference, or incorporate surgical case identifiers from Texas Children's Hospital or affiliated institutions. Inter-agency correspondence (AEC, NIH, NCI, Public Health Service, DOD, or DOE) involving:	09/15/2026

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2026-000441 (continued)			pediatric cobalt-60 therapy programs, radiation-era treatment oversight, surgical pathology case tracking, tumor-registry submissions, or any communication containing or referencing the specific 1965 surgical case number. Federal pathology or tumor-registry materials, including: accession logs, registry cards, microfilm/microfiche, or inter-agency medical documentation containing the surgical case identifier. Radiation-safety and isotope-licensing records, including: cobalt-60 calibration logs, radiation-safety reporting, licensing, compliance, or inspection documents, or any radiation-era oversight materials that include pediatric surgical case identifiers. This request concerns historical federal oversight of pediatric radiation-era treatment programs and is submitted to understand how federal governance during that period affects long-term childhood cancer survivors today. Fee Waiver Request A fee waiver is requested because disclosure will contribute significantly to public understanding of historical federal radiation-oversight practices affecting pediatric oncology programs and long-term survivors. This request is made in good faith for public-interest research and survivor-education purposes. Expedited Processing (Optional) If expedited processing is requested, include the following certification: I certify that the statements supporting my request for expedited processing are true and correct to the best of my knowledge and belief.	
FOIA-2026-000442	Hightower, Tira	-	Requests personnel information for a named individual from 1942-1946, while the individual was employed at the Metallurgical Laboratory at the University of Chicago (Manhattan Project).	09/15/2026
FOIA-2026-000443	Swanson, Mason	SCI Forest	Request for anything NRC can send about nuclear batteries, radioisotopes' half-lives and decay energies, phosphorescence, thermoelectric-generators, companies that have manufactured nuclear batteries, or other consumer devices that use radioactive byproduct-materials materials, and pictures, or anything else that may help.	09/16/2026

**NRC Management Met with Managers from the Institute of Nuclear Power Operations'
New Nuclear Team at INPO's Headquarters**

On September 10, 2026, management from the Office of Advanced Reactors met with managers from the Institute of Nuclear Power Operations' (INPO's) new nuclear team at INPO's headquarters in Atlanta, Georgia. Topics of discussion included the advanced reactor landscape and status of engagements with each organization, INPO's early concept of a third party accreditation or certification program for operator training, and the NRC's rulemaking activities and their potential impact on the advanced reactor community.

**Blue Energy Submitted a Limited Work Authorization Application for Its Proposed
Facility in Texas**

On September 15, 2026, Blue Energy (BE) submitted a limited work authorization application for its proposed facility in Victoria County, Texas. Separately, BE submitted requests for exemptions related to early construction and installation of structures, systems, and components for the balance of plant and fire protection program. The staff is beginning the acceptance review of the documents. If the requests are accepted for review, the staff will issue a detailed review schedule and resource estimate.

**NRC Staff Held Mandatory Hearing Public Meeting for the Belews Creek Early Site Permit
Application**

On September 17, 2026, NRC staff held the mandatory hearing public meeting for the Belews Creek Early Site Permit Application. Staff gave a presentation providing an overview of the licensing process. The presentation was followed by a question and comment period for members of the public. The meeting was attended by approximately 35 members of the public.
