- EXAMINATION REPORT 05000269/2026301, 05000270/2026301, AND
05000287/2026301

Dear Christopher Hartsock:

The purpose of this letter is to inform you of the individual examination results for the applicants who participated in the initial operator license examination conducted at your facility during the week of September 14, 2026, and on September 23, 2026. This letter complies with the intent of NUREG-1021, Operator Licensing Examination Standards for Power Reactors, Revision 12, ES-5.1, Section E.

Enclosure 1 is a copy of Form 5.1-3, Power Plant Examination Results Summary. Enclosure 2 consists of copies of the licenses for the applicants who passed the examination. Enclosure 3 consists of copies of the Individual Examination Reports (Form 5.1-2) for all applicants who took the examination. The Individual Examination Reports are included to enable you to evaluate individual weaknesses and provide appropriate remedial training for those operators as necessary.

You should receive the operator license certificates in approximately 90 days. Region II encourages licensees to plan certificate presentation ceremonies for licensed operators. If available, regional management will participate in such ceremonies. Please contact me at 404-997-5171 (e-mail: Christopher.Safouri@nrc.gov.) to discuss your plans, or if you have any questions.

Sincerely,

A handwritten signature in dark ink, appearing to read "Chris Safouri".
