Deaer Marlayna Doell,.

I object that the NRC provides only a 44 hour window to make a comment on this matter.

The link at the NRC webpage notice of public notice is in tiny print and nearly illegible format.

It appears that the Public is being railroaded into creating the appearance of ability to Comment, when in all practicality, Public Comment will be a farce.

Real public notice is lacking and this process is a railroad. Additional time is needed to allow experts to be heard.

Thank you
