4. Letter from Christopher D. Wilson (Constellation Energy Generation, LLC) to U.S. Nuclear Regulatory Commission, “Updated Notice of Intent to Pursue Subsequent License Renewal Application” dated July 9, 2026 (ML26190A026)

5. Letter from Christopher D. Wilson (Constellation Energy Generation, LLC) to U.S. Nuclear Regulatory Commission, “Notice of Intent to Pursue Subsequent License Renewal for Three Mile Island Nuclear Station, Unit 1” dated October 23, 2024 (ML24297A029)

In Reference 1, the NRC issued the revised Regulatory Issue Summary (RIS) 2009-06 to emphasize to licensees the importance of (1) giving the NRC advance notice of their plans for license renewal, and (2) notifying the NRC of changes in previously announced plans for license renewal.

In Reference 4, CEG announced the intent to submit the Quad Cities Nuclear Power Station, Units 1 and 2 for license renewal in the first quarter of 2027 (i.e., January to March 2027).

In Reference 5, CEG announced the intent to submit the Christopher M. Crane Clean Energy Center for license renewal in the first quarter of 2029 (i.e., January to March 2029).

This letter is notifying the NRC of changes to the previously announced plans for license renewal contained in Reference 3. CEG intends to submit the following SLRA according to the schedule below:

- Clinton Power Station, Unit 1 in the second quarter of 2028 (i.e., April to June 2028).

Further, in Reference 3, CEG submitted a License Renewal Application schedule to allow the NRC to plan more accurately and to budget agency resources accordingly. CEG is not prepared at this time to announce the specific plants for these SLRAs and, therefore, requests that the NRC identify them as "Unnamed" and show the applicant as CEG with the following updated submission dates, which supersedes the future submission dates listed in Reference 3.

In summary, CEG intends to submit future SLRAs as follows:

SLRA	Applicant	Submission Date
Quad Cities Nuclear Power Station, Units 1 and 2	CEG	January to March 2027
Clinton Power Station, Unit 1	CEG	April to June 2028
Christopher M. Crane Clean Energy Center	CEG	January to March 2029
Unnamed	CEG	April to June 2029
Unnamed	CEG	October to December 2029
Unnamed	CEG	October to December 2029
Unnamed	CEG	October to December 2031
Unnamed	CEG	April to June 2032
Unnamed	CEG	April to June 2033
Unnamed	CEG	April to June 2035

There are no regulatory commitments contained in this letter.

If you have any questions, please contact Amanda Goodhines, Senior Regulatory Engineer, License Renewal Projects via email at amanda.goodhines@constellation.com.
