rewrites of draft §70.60, §70.62, and related definition
s

have been recently posted on this website and comments are being sough
t

on the changes to the draft chemical safety regulations in this

thread. One purpose of these redrafts was to clarify the
responsibilities under NRC's 1988 memorandum of understanding (MOU)
with the Occupational Health and Safety Administration (OSHA), and to
address the comments provided by the Nuclear Energy Institute (NEI), i

hazards.

Do you believe the changes resolve the NEI's comments and provide
sufficient clarification of responsibility?

Do you believe the definition of "hazardous chemicals produced from
licensed material" clearly identifies areas of NRC's regulatory purvie
w

with respect to chemical safety?
