Separating the performance ~.txt

Separating the performance requirements from the descriptive requirements

From: B.T. Mendelsohn *btm1@nrc.gov*

Date: 12/22/98 13:13:16

Thread ID: 4

Subject:

http://techconf.llnl.gov/cgi-bin/downloader/dom_lic_lib/042-0042

.

Staff rewrites of draft sections 70.60 and 70.62, and related

definitions have been recently posted on this website and comments are

being sought in this thread on **clarification** provided by separating

the performance requirements from the descriptive requirements for integrated safety analyses (ISAs) and safety programs, and on the two added paragraphs, section 70.62(c)(2) and section 70.62(c)(3), that deal

with ISA team qualifications and ISA revalidation, respectively.
