htm">Staff rewrites of draft sections 70.60 and 70.62, and related

definitions have been recently posted on this website and comments are

being sought in this thread on clarification provided by separating

the performance requirements from the descriptive requirements for

integrated safety analyses (ISAs) and safety programs, and on the two

added paragraphs, section 70.62(c)(2)and section 70.62(c)(3), that deal

with ISA team qualifications and ISA

revalidation, respectively.
