Docket No.: 50-151

NRC - Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

SUBJECT: Technical Specification Revision for the UIUC Advanced TRIGA reactor.

Please find enclosed the necessary documentation for a technical specification revision changing the name of the Department of Nuclear Engineering at the University of Illinois to the Department of Nuclear, Plasma and Radiological Engineering.

If there are any questions, please do not hesitate to contact me.

Sincerely,

Richard L. Holm  
Reactor Administrator

## **Justification for Technical Specification Changes**

**10/1/99**

**Pages Affected:** 31, 32, 33, 34

**Change Requested:** Change Department of "Nuclear Engineering" to Department of "Nuclear, Plasma and Radiological Engineering"

**Justification:** The Department of Nuclear Engineering at the University of Illinois has changed its name to the Department of Nuclear, Plasma and Radiological Engineering. . This is an administrative change only. The name change does not have any effect on the reporting structure for the Nuclear Reactor Laboratory, but reflects a broader curriculum now offered by the department. The Department is mentioned seven (7) times on pages 31, 32, 33 and 34 of the Technical Specifications in relation to the administrative controls for the reactor. This change has no effect on the oversight or controls placed on the reactor by the University of Illinois.
