**RE: Revised Pages to Irigaray/Christensen Ranch Annual Report for 1998-1999,
Mine Permit No. 478**

Dear Mr. Mooney:

Enclosed please find two sets of revised pages to the referenced annual report. The revisions are limited to Appendix 5, the decommissioning and reclamation cost estimate. The changes reflect the inclusion of the plugging and abandonment of an additional deep disposal well and twelve additional wells that exist in the general area of Christensen Mine Unit 8. These modifications were discussed during your site inspection on October 19, 1999. Please call me if you have any questions.

Sincerely,

T. W. Hardgrove
Manager, Environmental and Regulatory Services
