OCT ! 9 1999

Mr. Lou Pisano Manager - Training Niagara Mohawk Nuclear Training RD #1, Box 148 Oswego, New York 13126

Dear Mr. Pisano:

Enclosed is NRC Report No. 17, "Requal Tracking Report" from the Operator Licensing Tracking System. This report was used by the NRC to schedule requalification examinations for operators and record the requal pass dates. This report is similar to the "Active Operators Report" (Report No. 9) which is available in the PDR but the renewal dates were not listed chronologically. Report No. 17 lists the effective expiration date according to month, date and year. We are using it to determine the number of renewal applications expected for a given year and we find this report may be of use to you. We also enclosed the facility license count summaries from Report No. 9 for your information.

Also, since we have discontinued sending the renewal notification letter, we are sending this report to each facility. The reports will alert you at the beginning of the fiscal year when renewal applications, NRC-398 and Certification Of Medical Examination, NRC-396, are due. As you know, the Form NRC-396 and Form 398 should be sent to the NRC thirty days before the expiration date. Licenses terminated by your facility would have to be deleted from the report.

We anticipate that these reports will be beneficial to you.

Thank you for your cooperation.

Sincerely.

Richard J. Conte, Chief Human Performance and Emergency Preparedness Branch Division of Reactor Safety

Docket Nos. 50-220; 50-410

Hadden /

273671

## Mr. Lou Pisano
