COMMENTS:

I approve the staff's proposal for monitoring foreign ownership and control of reactor licensees. I believe that the proposal currently represents the most feasible means of accomplishing the task in a reasonably effective manner.

COMMISSIONER DIAZ' COMMENTS ON SECY-99-229

I approve the part of the staff's proposal relating to continued monitoring of the trade press for and other sources for identification of significant changes in ownership and control of reactor licenses. I disapprove that part of the staff's proposal relating to development of a generic communication. The added value of a generic reminder of prohibitions on foreign ownership and control is not obvious in view of the substantial attention that the Commission and reactor licensees have given to these requirements in the past year as well as the ongoing license transfer reviews. In addition, it is not clear what, if any, new reporting requirements relating to changes in foreign ownership or control are contemplated or justified.
